## LIGHTWEIGHT PROJECT

Our Company, FAURECIA INTERIOR SYSTEMS SALC ESPAÑA S.L, in Spain has successfully developed an innovation project focused on:

- **Lightweight** solutions. Using bio-based & lightweight materials for weight and CO2 reduction (NFPP: Natural Fibers PolyPropylene)
- **Cost saving.** Improving glueless and one-shot process
- **Customization.** Increasing decoration panel proposal for NFPP one-shot parts

This project has been supported by CDTI (Centre for the Development of Industrial Technology) from Spanish Ministry of Economy and Competitiveness.  
This project (EXP 00078297 / IDI-20150199) has obtained funding from European Regional Development Fund (ERDF).

**PROYECTO: "DESARROLLO DE TECNICA MULTI-PRODUCTO ONE-SHOT FLEXIBLE PARA CONFORMADO DE MULTIPLES EFECTOS DECORATIVOS EN INSERTOS DE MODULOS DE PUERTAS"**

**EXP: IDI – 20150199**
