FORVIA Secures 'A List' Recognition for Climate Transparency and Leadership for the 2nd consecutive year

FORVIA, global leading automotive technology supplier, has once again been recognized for its commitment to sustainability and environmental leadership, securing a place on the prestigious 'A List' for climate change of global environmental non-profit CDP. In 2024, FORVIA achieved:

- A for Climate Change (maintained for the second consecutive year)
- A- for Water Security (improved from B in 2023).

A detailed and independent methodology is used by CDP to assess these companies, allocating a score of A to D- based on the comprehensiveness of disclosure, awareness and management of environmental risks and demonstration of best practices associated with environmental leadership, such as setting ambitious and meaningful targets. Those that don't disclose or provide insufficient information are scored an F.

This recognition places FORVIA among the top-performing companies worldwide in environmental transparency and action. Based on data reported through CDP Corporate Questionnaire 2024, FORVIA is one of the companies to achieve an A score for climate, out of more than 24,800 organizations disclosing globally.

CDP's scoring methodology aligns with leading frameworks such as TCFD (Task Force on Climate-related Financial Disclosures) and plays a critical role in guiding investment, procurement, and regulatory compliance toward a net-zero, nature-positive economy.

"Being awarded an 'A' score for climate for the second consecutive year and improving our water security score from B to A- demonstrates FORVIA's unwavering commitment to sustainability. Since our net-zero roadmap was validated by SBTi in 2022, we have accelerated initiatives such as the use of renewable energy, the development of a 'green factory' whitebook, and Designed-for-Scope-3 innovations, supported by MATERI'ACT, our subsidiary dedicated to low-carbon materials. This continued recognition from CDP validates our strategic focus and the tangible progress we are making to significantly reduce our environmental footprint," said **Victoria Chaniel, Executive Vice President, Group Communication, Public Affairs and Sustainability of FORVIA.**

FORVIA's net-zero roadmap, validated by the Science Based Targets initiative (SBTi), sets ambitious climate goals:

- Net-zero emissions across all scopes by 2045¹
- Net-zero on Scopes 1 & 2 by 2025²
- 45% reduction in Scope 3 emissions by 2030³.

A Shared Commitment to Sustainability

As FORVIA continues to lead the way in automotive sustainability, this recognition underscores the company's commitment to delivering tangible climate action, accelerating innovation, and creating long-term value for all stakeholders.

About FORVIA

FORVIA, global leading automotive technology supplier, comprises the complementary technology and industrial strengths of Faurecia and HELLA. With over 290 industrial sites and 76 R&D centers, over 150,000 people, including more than 15,000 R&D engineers across 40+ countries, FORVIA provides a unique and comprehensive approach to the automotive challenges of today and tomorrow. Composed of 6 business groups and a strong IP portfolio of over 14,000 patents, FORVIA is focused on becoming the preferred innovation and integration partner for OEMs worldwide. In 2022, the Group achieved a consolidated revenue of 25.5 billion euros. FORVIA SE is listed on the Euronext Paris market under the FRVIA mnemonic code and is a component of the CAC Next 20 and CAC SBT 1.5° indices. FORVIA aims to be a change maker committed to foreseeing and making the mobility transformation happen. www.forvia.com

About CDP

CDP is a global non-profit that runs the world's environmental disclosure system for companies, cities, states and regions. Founded in 2000 and working with more than 740 financial institutions with over \$136 trillion in assets, CDP pioneered using capital markets and corporate procurement to motivate companies to disclose their environmental impacts, and to reduce greenhouse gas emissions, safeguard water resources and protect forests. Over 24,000 organizations around the world disclosed data through CDP in 2023, with more than 23,000 companies – including listed companies worth two thirds global market capitalization – and over 1,100 cities, states and regions. Fully TCFD aligned, CDP holds the largest environmental database in the world, and CDP scores are widely used to drive investment and procurement decisions towards a zero carbon, sustainable and resilient economy. CDP is a founding member of the Science Based Targets initiative, We Mean Business Coalition, The Investor Agenda and the Net Zero Asset Managers initiative.
